

MOVING CHECKLIST

*** Sort and Purge**

Go through all the rooms in your home, decide what you you NEED and do not anymore. Make a pile of Trash, Donation, Consignment, and keep.

***Research Movers**

Making sure you pick the best company that fits your needs is crucial, make sure you do your research especially on the bigger Moving companies. Meet with the company to go over all your needs (need help packing, special items such as safes, pianos, hot tubs) Get a written estimate.

***Plan a Estate or Yard sale**

Research Estate Sale companies and see if this fits your needs or if a yard sale will be best. This is only needed if you are needing to de-clutter or just have extra things that you can part with and feel good about selling.

***Moving Supplies**

Start making notes on how many boxes you will need, check local suppliers for best prices on packing materials. Gather the information needed from your mover if they are doing the packing, ask the mover for references on supplies.

***Pack your Valuables**

This is for items such as Jewelry, Important files, etc. This is a box that you will want to keep with you.

***Do a change of address**

Go to your local post office and fill out Change of address form, or do it online at [usps.gov](https://www.usps.gov)

***Notify important parties**

Alert the following of your move - Bank, Subscriptions, Credit Cards, Utilities, Insurance, ect.

A FEW DAYS BEFORE MOVE

***Defrost freezer**

If you plan on moving your freezer or fridge do a good clean out and pack groceries into a safe cool ice bag or chest

***Pets**

Make sure your pets have a box of their essentials ready for the move

***Start Packing**

Pack up things you will not be needing, make sure to label your boxes! If you can take the beds apart to help save time! The more prep work you do the faster your move will be, if you can not get this done do not worry most movers come with tools to disassemble and re-assemble beds.

***Payment for movers**

If movers require half down now is time to get that ready for them, also if payment is received at the end make sure your bank is aware of the charges so there is no hold up or extra fees

MOVING DAY

***Prep for movers to arrive**

Make sure the driveway is clear and ready for the truck, make sure you have a clear walkway for movers to work through, we always start with boxes so the more boxes that are ready to go the faster the team can load up

*** Give Movers instructions and then steer clear and let them work!**

The movers are PROFESSIONAL at what they do, it makes it harder and slows them down when they are being followed every step, give space for the guys to work and get everything done properly.

***Prep your new home**

Try to beat the movers to your new home so you can have time to open the house and make sure the driveway is cleared for them. This also gives you time to think about placement of your furniture.

***Last check**

Check your old home for anything that may have been left behind, hire a cleaning service to finalize your old house!

***Unpack and ENJOY your new home!**

Now that your movers are unloaded and finished your move, now its time to organize and unpack! Welcome HOME!
